

Safety Data Sheet

Section 1: Identification

Regulation: In accordance with Regulation (EU) 2015/830 (REACH), Annex II, and OSHA 29 CFR 1910.1200

Important Note: As a solid, manufactured article, exposure to hazardous ingredients is not expected with normal use. This battery is an article pursuant to 29 CFR 1910.1200 and, as such, is not subject to the OSHA Hazard Communication Standard requirement. The information contained in this Safety Data Sheet contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

1.1 Product identifier

Product Model #: 04-00336010-001

Synonyms: Spot Battery

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: In Spot Robot

Uses advised against: any uses not identified as Relevant use

Further information: Not available

1.3 Details of the supplier of the safety data sheet

Supplier:

Boston Dynamics, Inc.
200 Smith Street
Unit 4100
Waltham, MA 04531
USA

US/Canada: 1.800.255.3924

International: + 1 1.800.255.3924

Responsible department: Quality team

Email address of competent person responsible for the SDS: Not available

1.4 Emergency telephone

US/Canada: 1.800.255.3925

International: +1 1.800.255.3925

Opening hours: Not available

Other comments: Not available

1.5 Further information

Battery system: Lithium-ion (Li-ion)

Nominal voltage: 50.4V

Rated capacity: 11.2 Ah

Wh rating: 564.48 Wh

This SDS covers the battery pack however, the only item in the pack which is relevant for SDS reporting are the actual battery cells. The attached cell SDS from the manufacturer covers the required notifications for the relevant chemicals in the battery pack.

Section 2: Hazard(s) Identification

See information in attached cell SDS

Section 3: Composition/ Information on Ingredients

See information in attached cell SDS

Section 4: First-Aid Measures

See information in attached cell SDS

Section 5: Fire-Fighting Measures

See information in attached cell SDS

Section 6: Accidental Release Measures

See information in attached cell SDS

Section 7: Handling and Storage

See information in attached cell SDS

Section 8: Exposure Controls/Personal Protection

See information in attached cell SDS

Section 9: Physical and Chemical Properties

See information in attached cell SDS

Section 10: Stability and Reactivity

See information in attached cell SDS

Section 11: Toxicological Information

See information in attached cell SDS

Section 12: Ecological Information (non-mandatory)

See information in attached cell SDS

Section 13: Disposal Considerations (non-mandatory)

13.1 Waste treatment methods

Product/Packaging disposal

- Consider the required attention in accordance with waste treatment management regulation.

Waste codes / Waste designation according to LoW(2015): 16-06-05

Waste treatment-relevant information:

- Waste must be disposed of in accordance with federal, state and local environmental control regulations.

Sewage disposal-relevant information: Not available

Other disposal recommendations: Not available

Section 14: Transport Information (non-mandatory)

This Lithium ion battery is shipped separately from the product in which it is used.

The battery has been tested and approved to UN 38.3. The packaging instructions are as listed below.

14.1 UN Number

3480

14.2 UN Proper shipping name

LITHIUM ION BATTERIES

14.3 Transport hazard class

Class 9

14.4 Packing group

Group II

14.5 Environmental hazards

No

14.6 Special precautions for user

Not available

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not available

14.8 IATA Transport

PI 965-Section IA

14.9 Package labels

Section 15: Regulatory Information (non-mandatory)

See information in attached cell SDS

Attachment: SDS from MoliceL for lithium ion cells used in production of the battery pack.
